COMPACT MARBLE
ELITSTONE - TERRAZZO - RIVER MATT

130 YEARS OF TRADITION

We are one of the leading manufacturers of bathroom furniture with a stable market position. We direct our products to the domestic and European markets. We can boast many prestigious awards that have been granted to our furniture. And although we are extremely proud of the present and continuously look to the future, we have never forgotten our past.

We take advantage of the tradition and place where we are

In 1887 on the premises of our present company a sawmill was built, the production of which came to a halt only in 1948. In 1953 adaptation works began in the sawmill and they were partially completed in 1956. Along with new investments, a new name was introduced. Then, in 1958, we were already talking about the Gdańsk Furniture Factory, which initially produced bedroom sets and kitchen furniture, and continued the work of its ancestors until the 1990s.

Caring for the continuity of tradition is something natural

The establishment of Elita company can be dated to December 1998. That's when we wrote the next chapter in the history books. Till now, using the wisdom and values of our predecessors, we continue the tradition of producing furniture from natural raw materials. What's more, we are constantly developing – in 2008 we became a member of Royo Group and since 2021 we have been part of Roca Group – a world leader with over 100 years of experience.

DESIGN

The hallmark of all bathroom furniture collections is high-quality products and elegant design, combining classics and tradition with a bold look at the latest trends.

COMPACT MARBLE
ELITSTONE - STRUCTURAL - BLACK MARQUINA

Elita has been creating its furniture with a passion for over 20 years and is one of the most valued Polish brands in the sector of design, production and sale of bathroom furniture. Right from the beginning we prove that the highest quality of the materials used, fashionable design, the ability to recognize the changing needs of customers and, above all, care for the perfect performance of the offered products are of paramount importance for the rapid development of the company.

What inspires us

Nature has been the source of our inspiration for years. It appears to us as a source of an unprecedented combination of surfaces and colours of various shapes, sizes and textures. Following its example, we consistently strive to maintain the design logic of products that are characterized by original ornaments, an ideal combination of lines, spatial freedom and solid workmanship. Thanks to this approach, our final client has the opportunity to create an original space by choosing the right furniture to suit their personality, style and needs.

The modern design and high quality of our products have been appreciated many times by the best experts in the furniture industry, as evidenced by the prestigious awards regularly won by our products. Competitions in which our furniture was highly ranked include: Bathroom – Choice of the Year, in which we won the main prize three times, Design for a connoisseur, Meble Plus and our latest achievement: the Furniture Diamond 2022 for the Look collection. Additionally, four of our collections were qualified to finals of the Dobry Wzór 2021 (Good Pattern) competition.

ElitStone is a brand of countertops, consoles and wall panels designed for Elita company. These beautiful elements are made of compact marble.

ElitStone is a collection made of compact marble, which consists of **96-97% natural marble** and **3-4% natural resins**. This means that the ElitStone stone retains all the mechanical and aesthetic properties of natural stone. As a result, the obtained elements are resistant to water and steam as well as high pressures.

Due to its solidity, countertops, wall panels and consoles will be perfect not only at home but also in public utility rooms.
